Cheryl L. Woods Giscombé, Ph.D., RN (she/her)

Associate Dean, PhD Division & Program and Levine Family Distinguished Scholar in Quality of Life, Health Promotion, and Wellness at the University of North Carolina School of Nursing

Dr. Giscombé's program of research focuses on understanding and reducing stress-related health disparities among African Americans. Her research incorporates sociohistorical and biopsychosocial perspectives to investigate how stress and coping strategies contribute to stress-related psychological and physical health outcomes. Dr. Giscombé has a particular interest in the potential for integrative approaches to reducing mental health-related disparities among African Americans.

Dr. Giscombé is dually trained in nursing and psychology. She completed a B.A. in psychology at North Carolina Central University and has a B.S.N. from Stony Brook University. She earned M.A. and Ph.D. degrees in social and health psychology from Stony Brook University and an M.S.N. from the psychiatric-mental health nurse practitioner/clinical nurse specialist program at the University of North Carolina at Chapel Hill.

Dr. Giscombé's community-engaged health equity projects are funded by the National Institute on Minority Health and Health Disparities and the Health Resources and Services Administration, among others.
